Subj: FLEET LOGISTICS SUPPORT IMPROVEMENT CONFERENCE (FLSIC) ACTION
      ITEMS

Encl: (1) List of Completed Action Items
      (2) List of Remaining Outstanding Action Items
      (3) List of New Action Items
      (4) List of Attendees

1. A Fleet Logistics Support Improvement Conference (FLSIC) was
held 13-14 March 2001 at NAB, Coronado, CA. Action items from
previous conferences that were closed at this meeting are listed in
enclosure (1). Remaining outstanding action items along with their
current status are provided in enclosure (2). New action items
generated from this meeting are contained in enclosure (3).
Enclosure (4) provides a revised list of attendees.

2. Presentations given at this FLSIC meeting are available on
NAVSEALOGCEN's web site by referring to:
http://www.nslc.navsea.navy.mil/nslcprod/sclsis.nsf and selecting
the link titled "13-14 March 2001 FLSIC".

3. For planning purposes, the next Interim FLSIC will be held 17-18
October 2001 at the Officer's Club, Mechanicsburg, PA. Details will
be provided by separate correspondence. Action Officers will be
requested to report on the current status of all remaining action
items as well as new action items at the October Interim FLSIC.

4. The NAVSEA points of contact for FLSIC issues are Ms. Audrey
Woodward, SEA 04L4B, commercial (703) 602-8018 x351 (DSN 332), or
Mr. Ed Chergoski, SEA 04L52, commercial (703) 602-8918 x338 (DSN
332), internet addresses: woodwardae@navsea.navy.mil and/or
chergoskiej@navsea.navy.mil.

                              //S//

List of Completed Action Items
13-14 March 2001

FORMAL ACTION ITEMS

990520-13   SEA 04I to provide Fleet/TYCOMs URL web site for the NTCSS training cycle. **(Note: The following Website for IT21 training cycle is: http://c4iweb.spawar.navy.mil/04/ibft/.)**

INFORMAL ACTION ITEMS

1. Regarding OPN Prioritization criteria:
   - By 30 Nov, FISCPS Code 70 generate a breakout of FY00 expenditures by (a) amount spent on priority requisitions and (b) amount spent on non-priority requisitions but segregated into Pri UICs and Non-Pri UICs.
   - By 15 Nov, NAVSEA 04L4B determine why program sponsor is funding at 85% vice at the 90% funding policy.

(Note: This was discussed at the FAMS/OSI 7 Feb 01 meeting with Fleet representatives.)

2. NAVSEALOGCEN N50/NAVICP-M 0563 determine the impact on allowance effectiveness and CASREPs resulting from CILS-TAT and Allowance Churn Reduction initiatives. **(Note: this was discussed at the FAMS/OSI 7 Feb 01 meeting with Fleet representatives along with additional discussions scheduled for the 12 March 01 Pre-FLSIC meeting. This issue has been incorporated within action item 000316-01.**

3. NAVSEA 04L5 to brief CDM/ISEA Working Group initiatives (i.e. X-RIC APL visibility in SNAP) at March 01 FLSIC. **(Note: This was briefed at the FLSIC and will be discussed at the 10 April 01 CDM/ISEA Conference.)**

4. NAVSEA 04L5 to brief progress on "train the trainer" training on CDMD-OA work file procedures at the March 01 FLSIC. **(Note: We conducted a "Train the Trainer" Course in November and only had 6 CDM representatives and only 1 ISEA representative. Last calendar year we taught 410 ISEA, ILO and CDM personnel and in 1999, we taught 16 personnel "Train the Trainer". If we receive more requests, we will teach more Train the Trainer classes. We would like to**

**have more trainers because currently the personnel who have
been trained stay quite busy training the CDMD-OA user
course.)**

5. Regarding NAVSEA's current OSI active fleet outfitting
funding policy, NAVSEA 04L4B will:
    - Provide Fleet POCs a recap of previous OSI working
      group meeting minutes as well as the OSI presentation
      given to OPNAV in Oct 1999.
    - Meet with Fleet to determine recommended course of
      action on funding OSI allowances.
    - Update OSI presentation and revisit the OSI proposal
      with OPNAV N412 to determine their current financial
      position on this issue.
    - Report findings at the March 01 FLSIC.
**(Note: We discussed this at the FAMS/OSI 7 Feb 01 meeting
with Fleet representatives. It was agreed that OSI
requirements would be considered on a "case-by-case" basis
via contacting SEA 04L4B as necessary.)**

6. NAVICP-M 0422 to contact CDMs/ILOs and provide ICPNET
POCs access information and training as required. (Refers
to closed action item 980723-13.)
**(Note: NAVICP-M 0422 provided the necessary information
regarding gaining access to NAVICP-M's data structures.)**

List of Remaining Outstanding Action Items From Previous Conferences

Task Number	Action Item

990520-08   Fleet provide comments/approval for Option III:
                 Optimized MAMs management within CDMD-OA:
                 - MAMs Working Group to establish business rules
                 - Determine if ISEAs have an automated MAMs location
                   tool
                 - Include FTSC/ILO in MAMs prototype effort
                 - Ensure functional change to CDMD-OA is presented to
                   CCB
                 Current Status:
                 - Centralized testing is complete
                 **- An implementation plan has been developed and has been
                   provided to the MAMs group for final approval
                   (complete)**
                 - Conduct NAVICP off-line test (complete)
                 **- Conduct meeting with NAVSEA/NAVSUP to review MAMs
                   Sampling Tool inclusion into R Supply and insure that
                   it works on both Force and Unit Level (held 3/19 -
                   results to be discussed at prototype review meeting in
                   May 01)**
                 **- Review ramification of eliminating MAMs from shipboard
                   supply systems and only track as configuration
                   items (to be discussed at prototype review meeting in
                   May 01)**
                 **- Establish training schedule for "train the trainer"
                   with POCs as identified by TYCOMs (Apr 01)**
                 **- Conduct TYCOM shore-prototype (4-6 weeks starting in
                   Apr 01)**
                 - Hold prototype review meeting (May 01)
                 **- Conduct shipboard live data test - 5 ships (4-6 weeks
                   May/Jun 01)**
                 **- Finalize Computer Base Training modules (Nov 00)
                   complete.**
                 **- Review prototype; began backfit & process online
                   (Jun/Jul 01)**
                 - Deployment of process Fleet-wide (Jul/Aug 01)
                 **- Investigate SEA 04L's discussion with Fleet on
                   tracking MAMs by PN**
                 - Brief at Interim FLSIC (Oct 01)

991014-02   Regarding the need to formalize NTCSS software
             applications architecture functional training plans:

             Functional managers are to identify Training Support
             Agency (TSA) and CNET Training Agent (TA) for sponsored
             systems or assign TSA/request TA as necessary:
                  - CLF N6 for ADM/R-ADM
                  - NAVSEA 04I for OMMS/OMMS-NG, SFM
                  - NAVSUP for SUADPS-RT/R-SUPPLY, and
                    NALCOMIS

             Sponsors/TAs/TSAs are to work with SPAWAR PMW-151/15L/
             04l/schoolhouses/FASOs/Fleets and SSC, Chesapeake to
             identify courses that require creation, revision or
             deletion and plan funding/implementation.

             All are to identify TAs/TSAs/training funding source for
             all proposed business process improvements and submit
             appropriate POM issue papers.

             SPAWAR PMW-151/15l to publish capstone NTCSS NTSP, with
             various applications, as relevant, as appendices.
             Update as required, with input from CNO, sponsors,
             schoolhouses, FASOs, Fleets, TAs, and TSAs.
             Current Status:
             **Development of Training Requirements for all NTCSS
             applications is ongoing.**
             Progress:
             NTCSS Capstone NTSP is under 04L review.
             NALCOMIS OIMA/OOMA NTSP is in draft.
             RSUPPLY NTSP is under development.
             **All JTA's are complete with the exception of OMMS
             NG/RADM scheduled for mid Mar 01. Overall plan is to
             complete training situation analysis (TSA) to assess
             current training situation, then conduct a Job Task
             analysis, and with those results roll into curriculum
             development effort to support NTCSS applications.**
             Issues:
             **Curriculum is under development for AZ "C" school, due
             for pilot teach 11 Jun 01. RSUPPLY curriculum
             development to begin in March 01.**

             **Additional status will be provided at the October
             Interim FLSIC.**

991014-06   SEA 04L5 to obtain Fleet concurrence on final draft of
             OPNAVINST 4400.10C in order to provide to OPNAV N43 for
             signature.
             **Current Status: Update, utilizating ILOLANT's
             Operational Instruction as a guideline and provide final
             version to OPNAV N34 for signature.**

000316-01   NSLC N50/NAVICP-M 0563 to provide status on the
             development of Focus Allowance Maintenance strategy
             (FAMS) – especially in targeting problem equipments.
             Also, determine the impact on allowance effectiveness
             and CASREPs resulting from CILS-TAT and Allowance Churn
             Reduction initiatives. (Note: This replaces action item
             990520-01.)
             **Current Status: NAVICP-M 05632 and NSLC N50 provided an
             overview presentation of FAMS along with discussing the
             enhancements in identifying FAMS problem
             systems/equipment that will be incorporated based upon
             recent meetings with Fleet representatives. Additional
             follow-on meetings will be held to ensure FAMS
             requirements are fully defined and acceptable to the
             Fleet.**

001018-01   Regarding rebasing ILO functionality into CDMD-OA, the
             following actions are required:
             - NSLCPAC to complete DBR replication to CDMD-OA
               central.
             - LANTFLTILO/FTSCPAC to prototype DBR process via
               CDMD-OA central.
             - LANTFLTILO/FTSCPAC to document procedures and train
               on DBR process.
             - LANTFLTILO/FTSCPAC to implement DBR process.
             - Transition of SCWA functionality to CDMD-OA.
             **Current Status: DBR procedural documentation has been
             prepared by ILOLANT up to the point of review of the
             replicated DBR data within CDMD-OA and forwarded to
             FTSCPAC for consideration.**
             **The CCB met with SEA 04L5 to discuss various changes and
             enhancement requests. The replication rewrite has been
             approved and we will begin programming the replication
             program. The SCWA SRS is being finalized and will be
             submitted via the Validation Working Group. It was
             agreed to keep this action item open and to provide
             current status at the October Interim FLSIC.**

001018-02   Regarding conducting ILO's on Micro-SNAP the following
                actions are required:
                - NAVSEA 04L52 to develop SRS to modify Micro-SNAP to
                  output requisition supply status in a full ILO with
                  ILO/FTSCPAC assistance.
                - NAVSEA 04L52 to investigate cost to modify Micro-
                  SNAP to output requisition supply status for a full
                  ILO.
                **Current Status: SPAWAR Chesapeake currently has this
                requirement for action and will commence programming in
                mid-March to add the RQF transfer tape functionality
                into Micro-SNAP. It was agreed to keep this action item
                open in order to obtain current status at the October
                Interim FLSIC.**

001018-03   Regarding 3-M upline data, the following actions are
                required:
                NAVSEA 04L5 will task NSLC N65 to develop a method of
                tracking and identifying to the appropriate Type
                Commander those UIC's that parts usage data is not being
                received. For OMMS-NG/R-Supply ships develop a method
                to track the receipt of (.pts) files in sequence.
                Develop the programming and business rules to prevent
                processing of (.pts) data out of sequence. Also develop
                a notification process to provide feedback to the
                appropriate UIC's when (.pts) file sequence numbers are
                missing so the files can be retransmitted. The
                preferred notification method is a weekly message per
                TYCOM POC listing.
                **Current Status: TYCOMs are to send an email to NSLC N64
                (Jerry Koehler) identifying their POC to receive
                tracking reports and then the Fleet will review to
                determine if the reports are acceptable.**

001018-04   NAVSEA 04L5 to investigate which enlisted ratings
                schools should include the X-MAMS training into their
                school curriculum.
                **Current Status: It was agreed to leave this action item
                open and to continue to work with CNET.**

001018-05   COMNAVAIRLANT Code SSNN 1833D to provide NAVSEA 04L5
                status report on Tech Manual IPT for inclusion in
                interim minutes. NAVSEA 04L5 to visit NSDSA PHD to
                assess TDMIS in consideration of ILO issues raised
                during the October 2000 Interim FLSIC.
                **Current Status: CNAL N430C will provide the status
                report via PMS 312L and SEA 04L52 will turn this action
                item over to SEA 04L1.**

001018-06   NAVSEA 04L4 with assistance from COMNAVSURFLANT C412E12, develop the business rules to be used by the trusted agent in setting the LSRI trigger. The individual TYCOMs will determine who will serve as the trusted agent. As an interim measure, NAVICP-M 0563 will serve as the trusted agent.
Current Status: CNSL C412E12 will provide draft business rules to SEA 04L4B for consideration.

001018-07   Regarding Sealed Bearing proposal, NAVSEA 04L52 provide letter to Fleet CINCs/TYCOMs citing background (including cost data) along with outlining benefits and recommended course of action for consideration by the maintenance community.
Current Status: It was agreed to keep this action item open and to discuss the status at the October 01 Interim FLSIC.

Fleet Logistics Support Improvement Conference
New Action Items

010314-01   OPNAV N34/SEA 04L4 define ILS and life cycle support requirements for Force Protection material:
- Funding
- ISEA Tech Support
- Supply Support
- Training Requirements

010314-02   NAVSUP 4C2C2 to determine functionality/ compatibility between R-Supply and:
- ILO Requirements
- ROMIS/LOS/MOS Data Base Interface
- MAMs Optimization Initiative
- ERP Interface

010314-03   SEA 04L4B/NAVSEALOGCEN N50 factor effectiveness indicators for CILS/TAT-FAMS within current metrics working group standards.

010314-04   SEA 04M1 continue to provide Fleet with periodic status regarding afloat ERP progress.

010314-05   SEA 04L5 obtain Fleet feedback from Combat Systems Readiness Assessments (CSRAs) to assist in data collection for NAVSEA's CM Software Policy.

010314-06   SEA 04L5 visit INSURV to consider using CDMD-OA as data source for PRISM application.

010314-07   SEA 04M5 to solicit Fleet feedback on draft proposal for reduction/consolidation of classification of FMP Alterations.

010314-08   SEA 04M5 develop draft POM 04 submittal for Maintenance Support Analysis Team (MSAT) to support outsourcing and coordinate with IMSR.

010314-09   SEA 04L5 prepare Naval message to ISEA's outlining requirements regarding what Tech Reps are to do when carrying repair parts on board during a ship visit.
